

Value of z and q at time $t=1$.

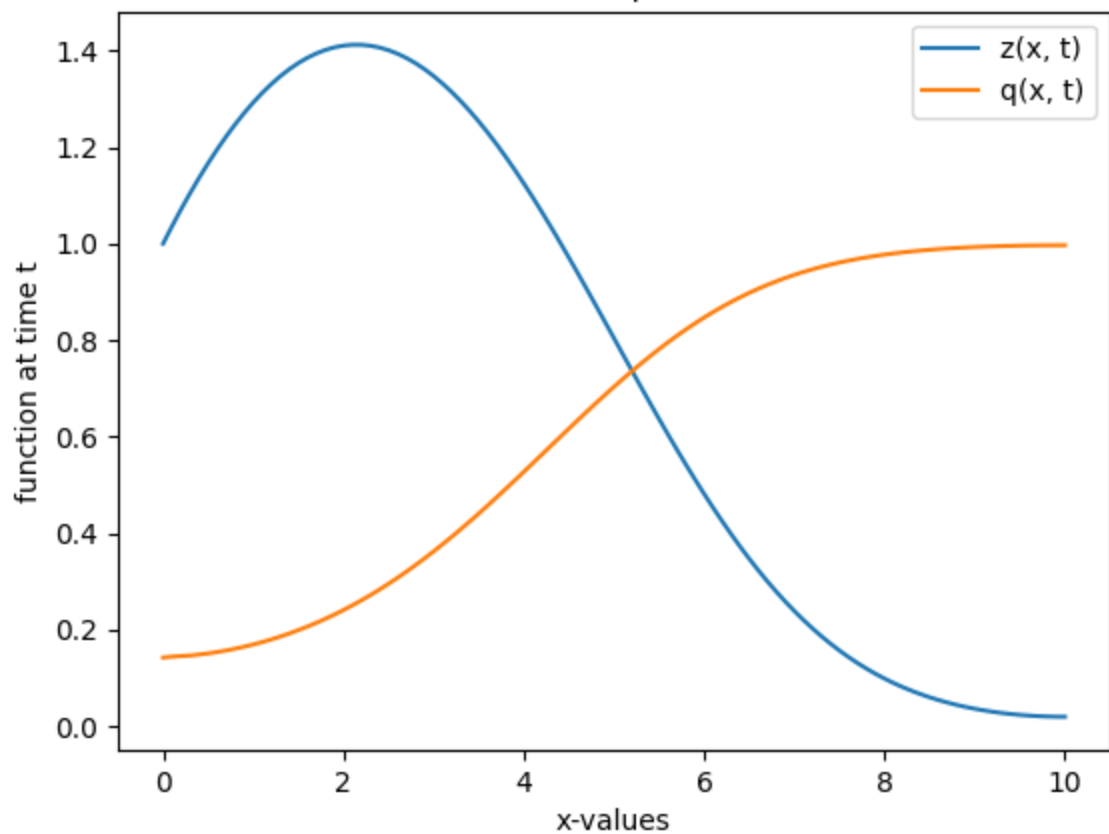

Value of z and q at time $t=2$.

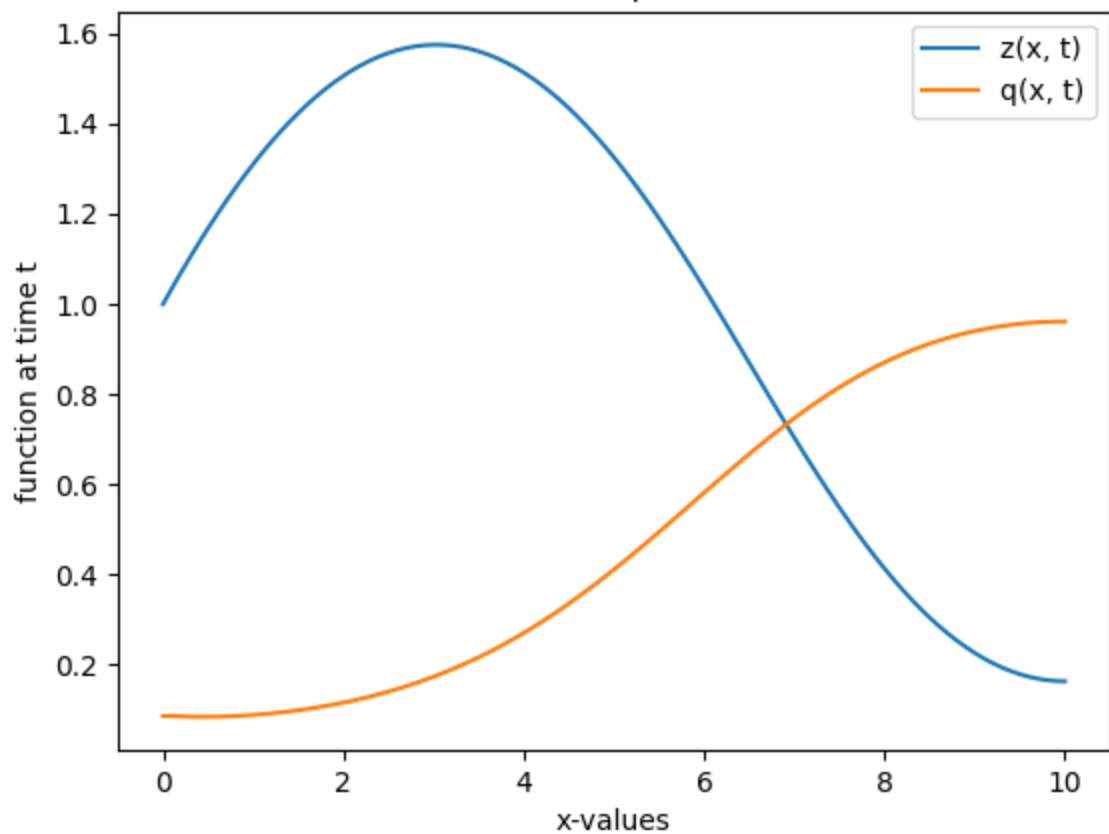

Value of z and q at time $t=3$.

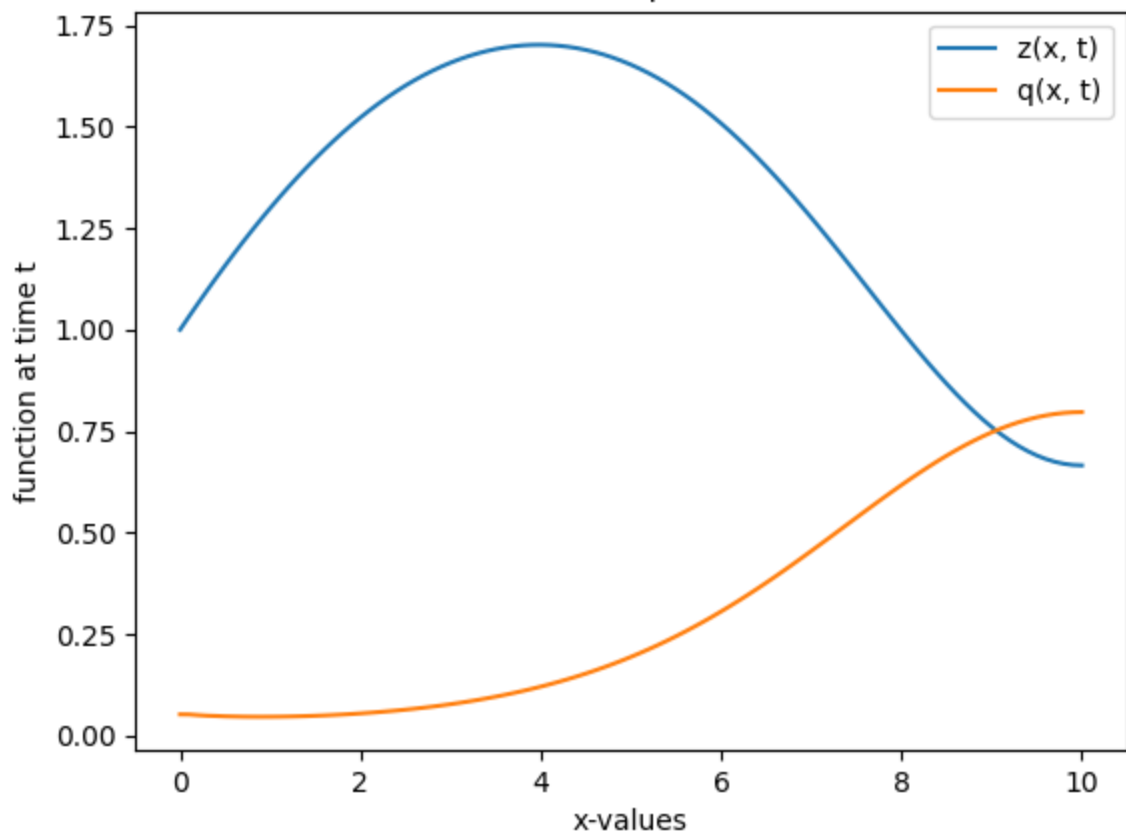

Value of z and q at time $t=4$.

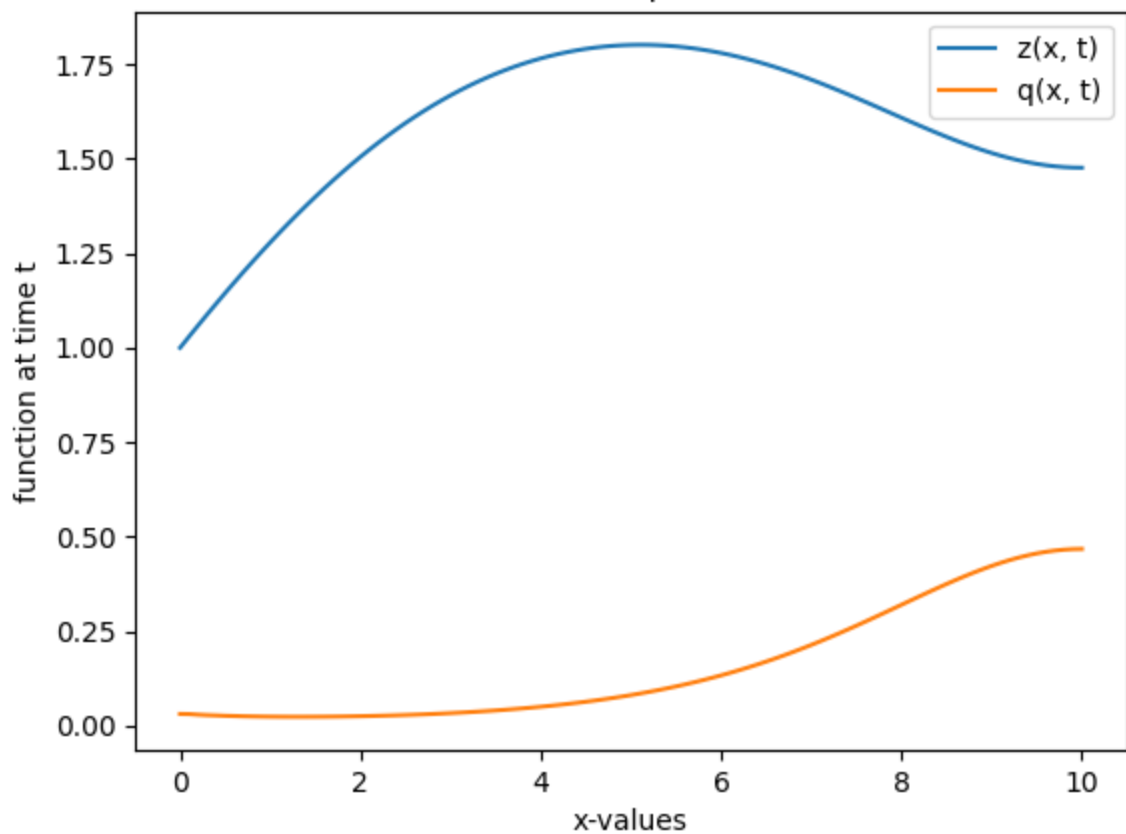

Value of z and q at time $t=5$.

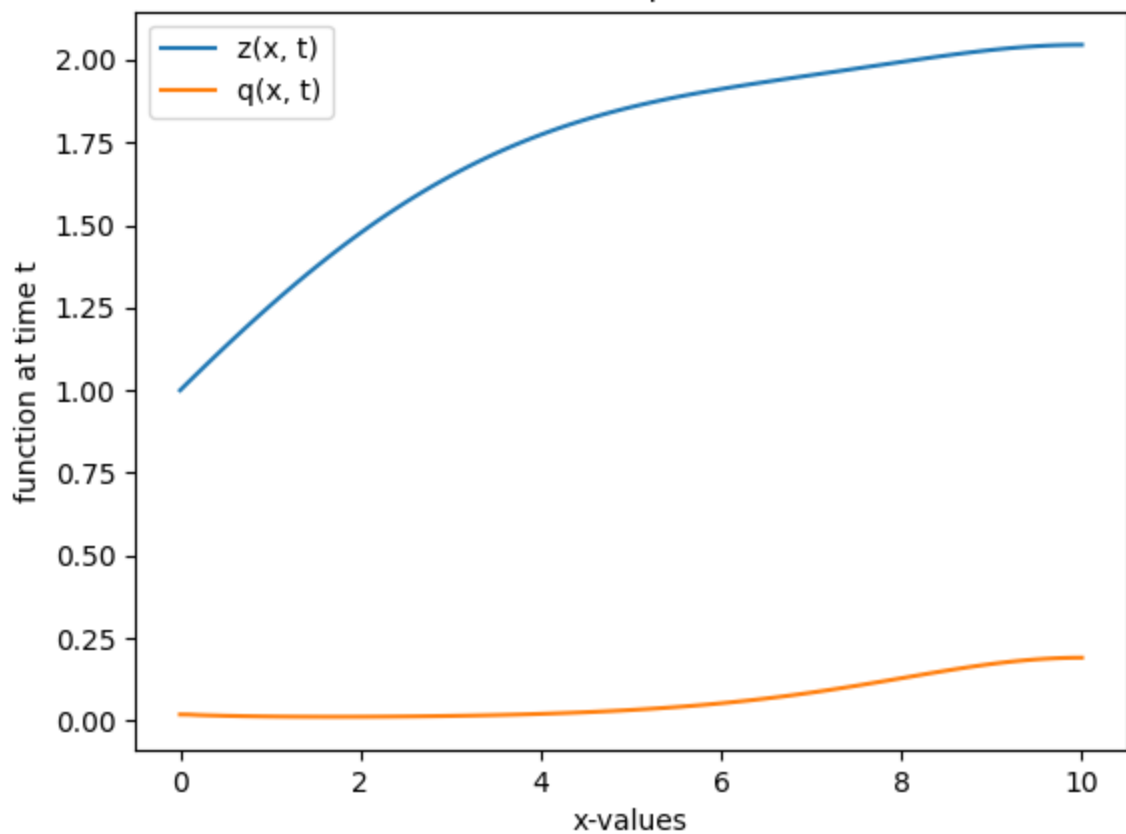

Value of z and q at time $t=6$.

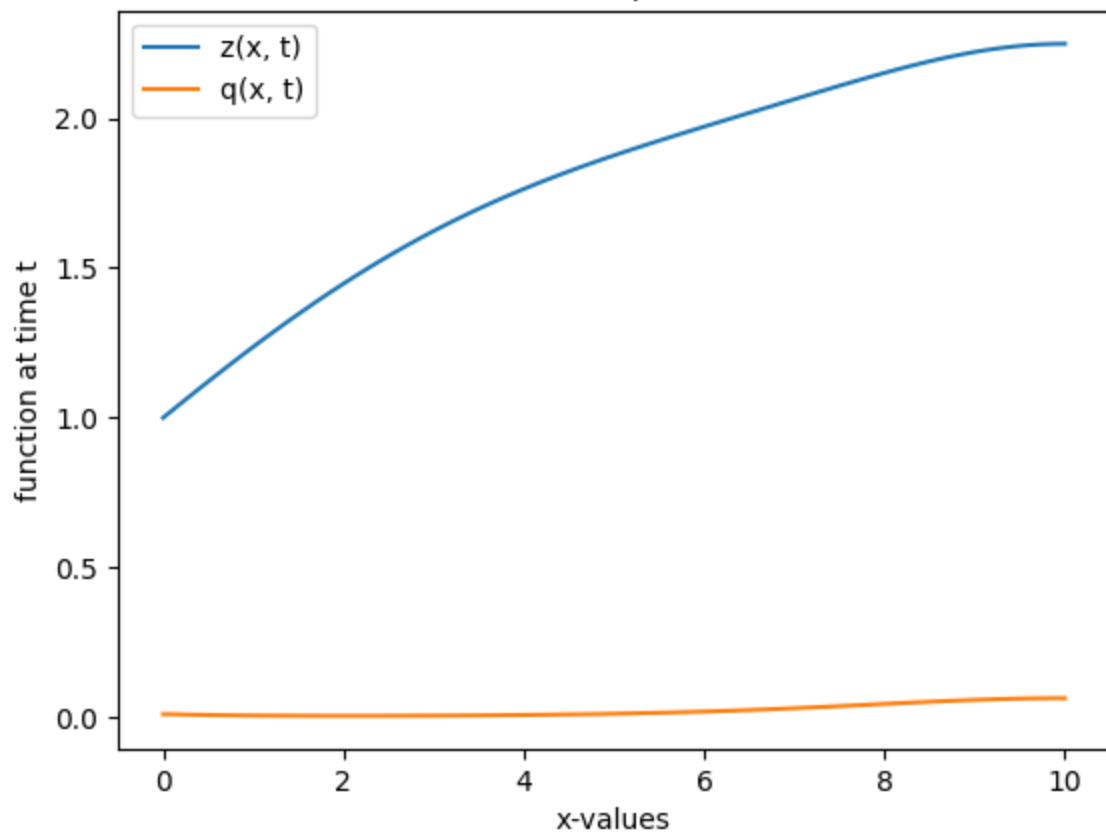

Value of z and q at time $t=7$.

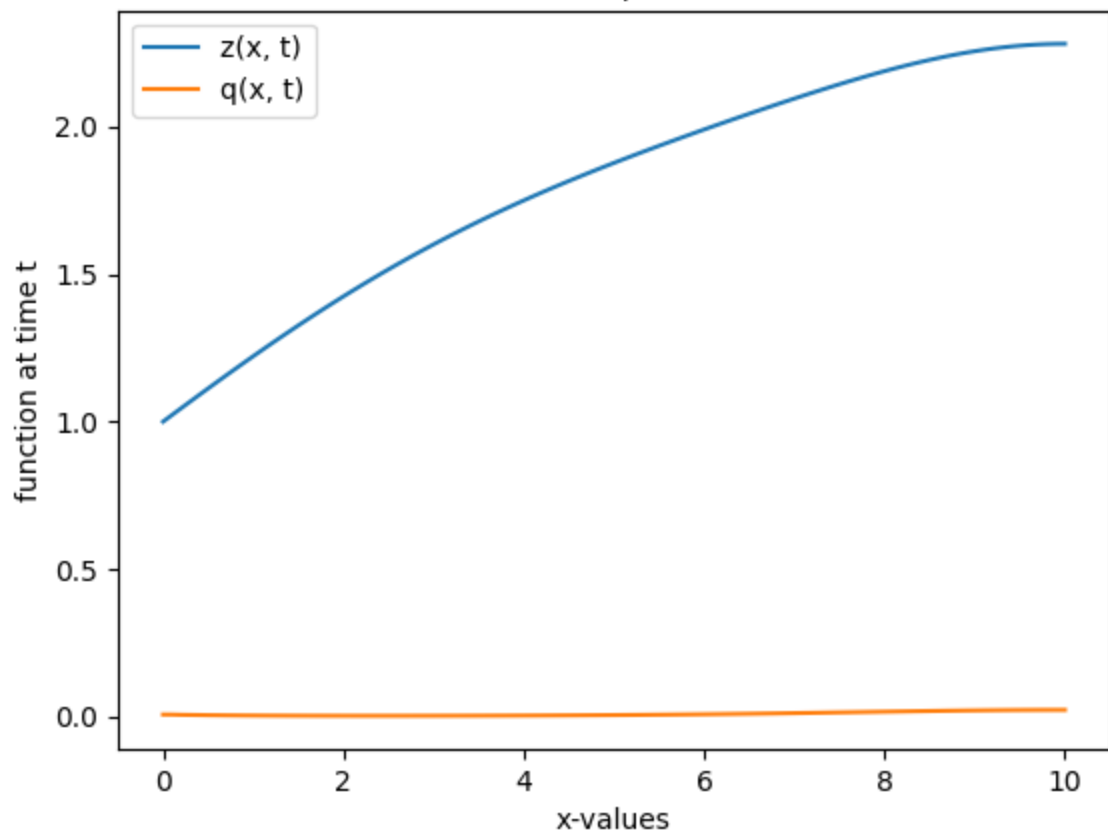

Value of z and q at time $t=8$.

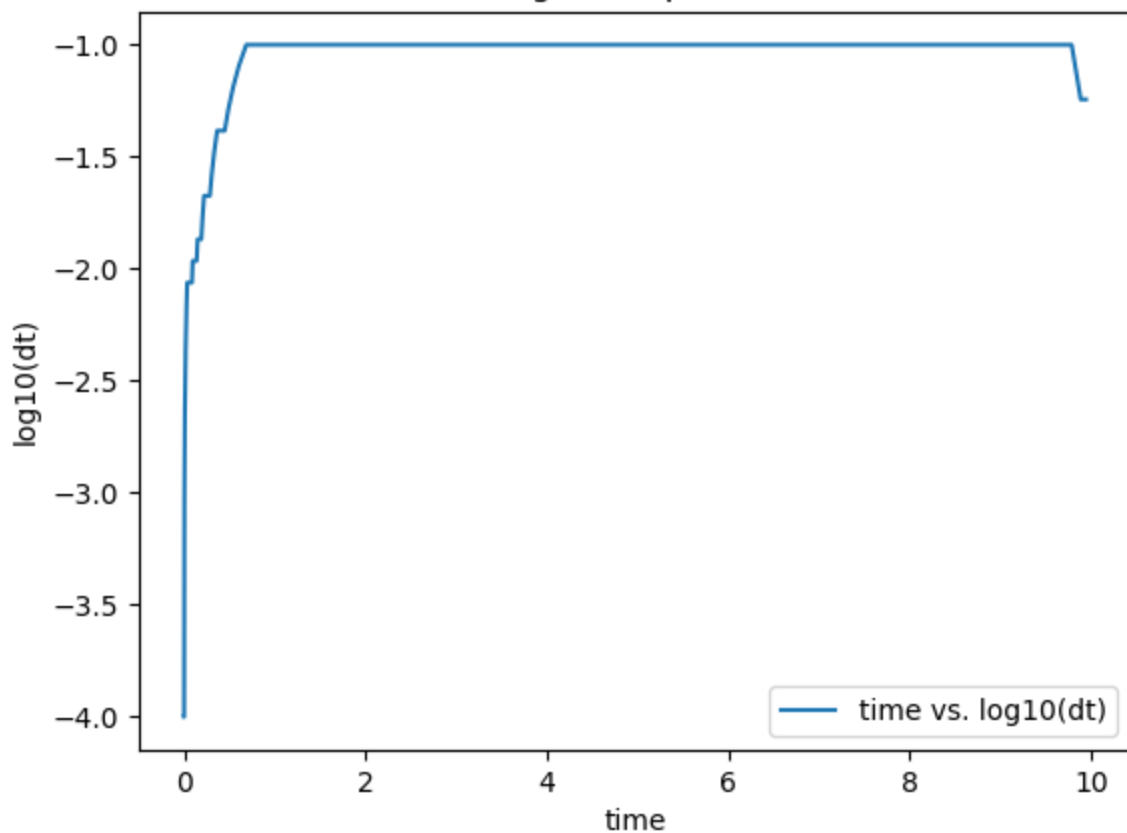

Value of z and q at time $t=9$.

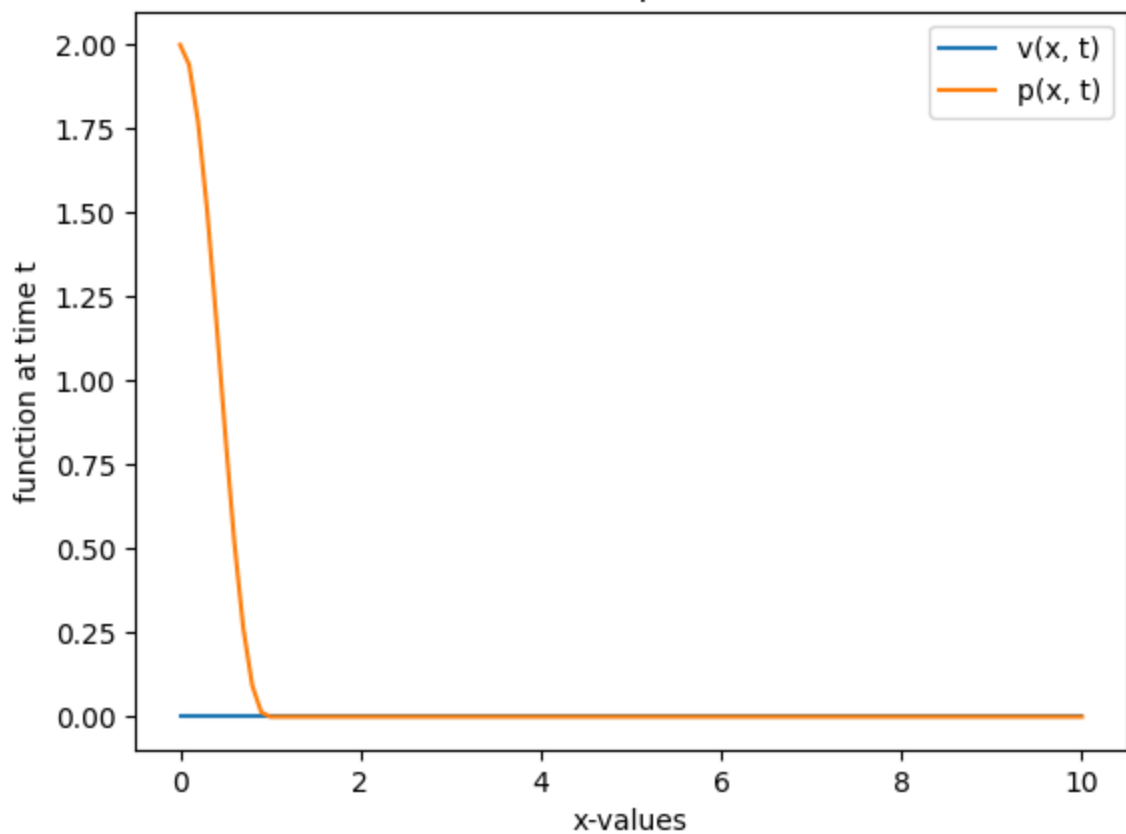

Value of z and q at time $t=10$.

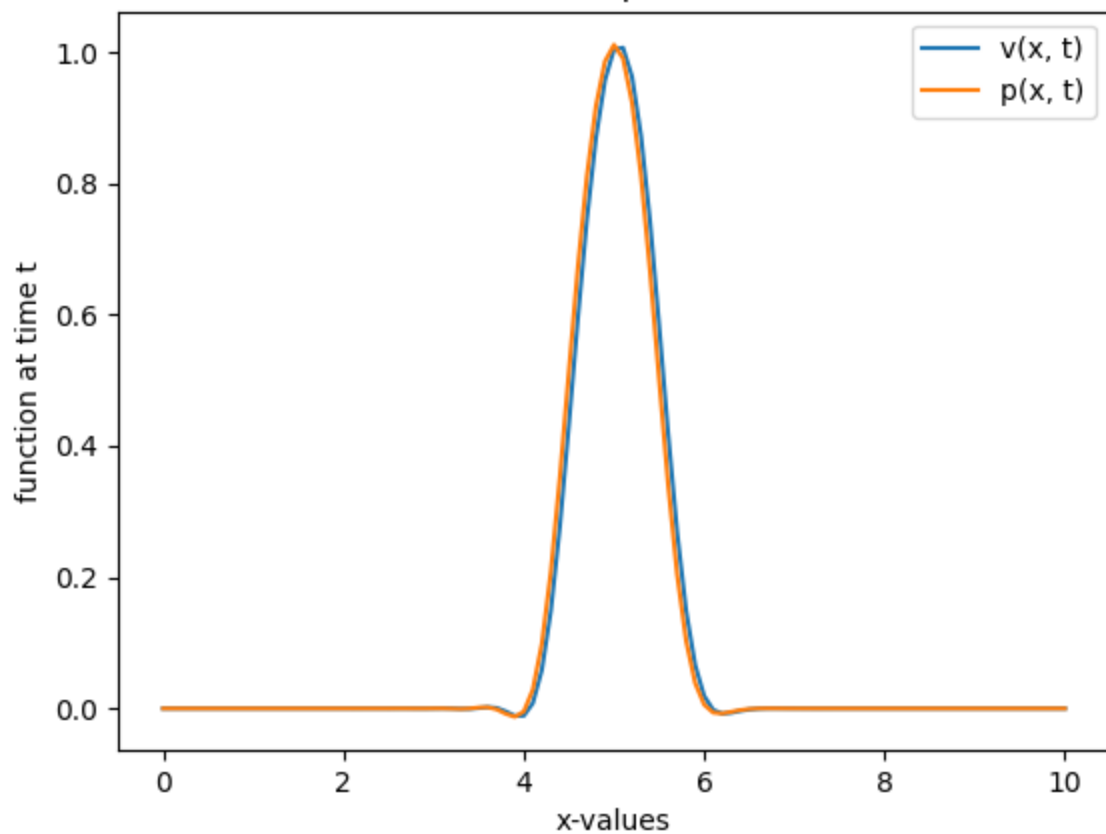

Time vs. $\log_{10}(dt)$ plot for Case 0.

Value of v and p at time $t=0$.

Value of v and p at time $t=5$.

Value of v and p at time $t=13$.
